

Rodney Farrar
Implementation Specialist

Rodney Farrar is the Implementation Specialist for SLPA ACO, LLC, the Accountable Care Organization of the St. Louis Physician Alliance, a physician led, clinically integrated network of more than 500 physicians & 120+ facility members. He is responsible for leading technical projects that include Caradigm's population health suite's implementation and data integration, clinical workflow analysis, physician education, and financial data analysis.

Rod brings 17 years of experience with data integration and enterprise systems implementation in the healthcare industry, and served as a senior consultant to several large healthcare systems across the country. He received his undergraduate degree in computer science and mathematics from Northeastern State University. Rod recently retired as a Major in the Army National Guard after 27 years of service.
